Econophysics of Agent-Based Models (New Economic Windows)

Econophysics of Agent-Based Models (New Economic Windows)

The primary goal of this book is to present the research findings and conclusions of physicists, economists, mathematicians and financial engineers working in the field of "Econophysics" who have undertaken agent-based modelling, comparison with empirical studies and related investigations.

Most standard economic models assume the existence of the representative agent, who is "perfectly rational" and applies the utility maximization principle when taking action. One reason for this is the desire to keep models mathematically tractable: no tools are available to economists for solving non-linear models of heterogeneous adaptive agents without explicit optimization. In contrast, multi-agent models, which originated from statistical physics considerations, allow us to go beyond the prototype theories of traditional economics involving the representative agent. This book is based on the Econophys-Kolkata VII Workshop, at which many such modelling efforts were presented. In the book, leading researchers in their fields report on their latest work, consider recent developments and review the contemporary literature.

From reader reviews:

Denise Dennis:

Throughout other case, little men and women like to read book Econophysics of Agent-Based Models (New Economic Windows). You can choose the best book if you want reading a book. Given that we know about how is important any book Econophysics of Agent-Based Models (New Economic Windows). You can add knowledge and of course you can around the world by a book. Absolutely right, due to the fact from book you can learn everything! From your country till foreign or abroad you will be known. About simple matter until wonderful thing you could know that. In this era, we are able to open a book or perhaps searching by internet unit. It is called e-book. You can utilize it when you feel fed up to go to the library. Let's go through.

Levi Ryan:

The book Econophysics of Agent-Based Models (New Economic Windows) make you feel enjoy for your spare time. You can use to make your capable much more increase. Book can to be your best friend when you getting tension or having big problem together with your subject. If you can make looking at a book Econophysics of Agent-Based Models (New Economic Windows) to become your habit, you can get a lot more advantages, like add your capable, increase your knowledge about many or all subjects. You could know everything if you like wide open and read a reserve Econophysics of Agent-Based Models (New Economic Windows). Kinds of book are a lot of. It means that, science publication or encyclopedia or other people. So , how do you think about this e-book?

Patrick Bergeron:

Reading a book to become new life style in this 12 months; every people loves to learn a book. When you examine a book you can get a lot of benefit. When you read textbooks, you can improve your knowledge, simply because book has a lot of information onto it. The information that you will get depend on what types of book that you have read. If you want to get information about your study, you can read education books, but if you act like you want to entertain yourself you are able to a fiction books, this sort of us novel, comics, in addition to soon. The Econophysics of Agent-Based Models (New Economic Windows) will give you a new experience in looking at a book.

William McNeill:

As a pupil exactly feel bored to reading. If their teacher inquired them to go to the library or make summary for some publication, they are complained. Just very little students that has reading's internal or real their pastime. They just do what the trainer want, like asked to go to the library. They go to presently there but nothing reading critically. Any students feel that reading through is not important, boring in addition to can't see colorful pics on there. Yeah, it is for being complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore , this Econophysics of Agent-Based Models (New Economic Windows) can make you sense more interested to read.
