## **The Public-Private Nature of Charity Law** Kathryn Chan

Is charity law a "private law" or a "public law" subject? This book maps charity law's relationship to the public law-private law divide, arguing that charity law is best understood as a hybrid (public-private) legal tradition that is constantly seeking to maintain an equilibrium between the protection of the autonomy of property-owning individuals to direct and control their wealth, and the furtherance of competing public visions of the good. Of interest to scholars and charity lawyers alike, *The Public-Private Nature of Charity Law* applies its unique lens both to traditional topics such as the public benefit rule and charity law's rules of standing, and to more contemporary issues such as the co-optation of charitable resources by threatened welfare states and the emergence of social enterprise.
