## **El conocimiento de lo social : II. El método-estrategia (Alternativas al desarrollo) (Spanish Edition)**

Enrique Luengo González

Para estudiar y comprender algo tan complejo, dinámico y cambiante como la sociedad, se requiere de nuevos modelos para la investigación social y la producción del conocimiento científico de lo humano colectivo. Con el fin de contribuir a su desarrollo, el autor esboza el perfil que debe tener el método-estrategia a utilizar, el cual debe ser tan flexible como su objeto de estudio y de amplio alcance para superar el análisis fragmentado de la sociedad, así como capaz de guiar en la respuesta de interrogantes como: ¿cómo realizar estudios empíricos aplicando los principios del pensamiento complejo? y ¿cuáles son los procedimientos e instrumentos recomendables en una investigación que pretende el conocimiento complejo de lo social? Todo ello busca incentivar a los investigadores, profesores y estudiantes de las ciencias sociales, a quienes va dirigida esta obra, cuyo contenido se puede complementar con las ideas que se exponen en El conocimiento de lo social I. Principios para pensar su complejidad, que también pertenece a esta colección.
