A ARTE DE EDUCAR E A PSICOLOGIA EXPERIMENTAL[2] «To educate is to bring out all the powers that are in the child and to train him to use them to the best advantage of himself and indirectly of the nation of which he is a part». (Miss C. Agutter, Child Study, June, 1917). Minhas Senhoras e meus Senhores: A arte de educar é fundamentalmente a arte de regular a conduta presente e futura dos que se têm de educar. Implica forçosamente o conhecimento da conduta, das causas dela, do seu mecanismo e das possibilidades que o indivíduo oferece. A arte de educar assenta como a arte de curar, na anatomia e na fisiologia e assim como o médico, médico que tenha de exercer a profissão, tem não só de conhecer as doenças e os remédios, mas também conhecer os doentes e encontrar as indicações, assim também o educador, que tenha de educar, tem não só de conhecer os fins da educação e os meios da educação, a pedagogia e a metodologia, mas também de saber conhecer o educando e encontrar a forma de educação que mais lhe convenha e se adapte ao seu feitio.
