In a future world, a wiser humanity shuns all destructive technologies. Instead of using machines that pollute the planet, the Labs manufacture life forms to meet every need and want; from lowly bacteria that break down refuse, to complex animals that serve and toil. Society is thriving, but for three youngsters life is precarious—a highborn girl who stumbles across a web of corruption; a farm boy with strange mutations; and a cannibal up against his tribe. Desires burn, ambitions clash, and while strife brews from within, outside forces are preparing to oust the old regime, and even challenge the supremacy of mankind itself.
