This study tool has everything you need to prepare for the ARRT CT exam! Written in outline format, Mosby's Exam Review for Computed Tomography, 2nd Edition serves as both a study guide and an in-depth review. It covers the three content areas on the CT advanced certification examination: patient care, imaging procedures, and physics/instrumentation. Developed by Daniel N. DeMaio, BS, RT(R) (CT), the book simulates the Registry exam with three 165-question mock exams. This title includes additional digital media when purchased in print format. For this digital book edition, media content is not included.

- Review questions with answers help you prepare for the ARRT exam and identify areas that need additional study.
- Rationales for correct and incorrect answers provide you with the information you need to make the most out of the Q&A sections.
- A thorough, outline-format review covers the three content areas on the computed tomography advanced certification exam: patient care, imaging procedures, and physics/instrumentation.
