Remote Sensing from Air and Space (SPIE Press Monograph Vol. PM162SC) R.C. Olsen

Remote Sensing from Air and Space will guide you in the use of remote sensing for military and intelligence gathering applications. It is a must read for students working on systems acquisition or for anyone interested in the products derived from remote sensing systems. R. C. Olsen of the Naval Postgraduate School offers an eclectic description of the technologies and underlying physics for a wide range of remote sensing systems, including optical, thermal, radar, and lidar systems. This monograph describes this diverse set of applications using full-color graphics and a friendly, readable format.

Contents

- Preface
- Introduction to Remote Sensing
- Electromagnetic Basics
- Visible Imagery
- Orbital Mechanics Interlude
- EO Spectral Imagery
- Image Analysis
- Thermal Infrared
- Radar
- Radar and LIDAR
- Appendix 1: Derivatives
- Appendix 2: CORONA
- Appendix 3: Tracking and Data Relay Satellite System
- Appendix 4: Useful Equations and Constants
- Index

From reader reviews:

Benita Eldridge:

Have you spare time for the day? What do you do when you have considerably more or little spare time? That's why, you can choose the suitable activity for spend your time. Any person spent their particular spare time to take a walk, shopping, or went to the particular Mall. How about open or read a book entitled Remote Sensing from Air and Space (SPIE Press Monograph Vol. PM162SC)? Maybe it is to get best activity for you. You already know beside you can spend your time using your favorite's book, you can better than before. Do you agree with it is opinion or you have other opinion?

Tom Seaman:

This Remote Sensing from Air and Space (SPIE Press Monograph Vol. PM162SC) book is not really ordinary book, you have after that it the world is in your hands. The benefit you receive by reading this book is actually information inside this publication incredible fresh, you will get facts which is getting deeper an individual read a lot of information you will get. This specific Remote Sensing from Air and Space (SPIE Press Monograph Vol. PM162SC) without we comprehend teach the one who looking at it become critical in pondering and analyzing. Don't possibly be worry Remote Sensing from Air and Space (SPIE Press Monograph Vol. PM162SC) can bring any time you are and not make your handbag space or bookshelves' grow to be full because you can have it in your lovely laptop even cell phone. This Remote Sensing from Air and Space (SPIE Press Monograph Vol. PM162SC) having good arrangement in word and layout, so you will not really feel uninterested in reading.

Alice Wilkerson:

Hey guys, do you really wants to finds a new book to study? May be the book with the headline Remote Sensing from Air and Space (SPIE Press Monograph Vol. PM162SC) suitable to you? The actual book was written by well-known writer in this era. Often the book untitled Remote Sensing from Air and Space (SPIE Press Monograph Vol. PM162SC) is the main one of several books that everyone read now. This kind of book was inspired lots of people in the world. When you read this guide you will enter the new shape that you ever know ahead of. The author explained their concept in the simple way, therefore all of people can easily to be aware of the core of this guide. This book will give you a lots of information about this world now. To help you to see the represented of the world in this particular book.

Raymond Albanese:

Reading a publication tends to be new life style on this era globalization. With examining you can get a lot of information which will give you benefit in your life. Using book everyone in this world can certainly share their idea. Books can also inspire a lot of people. Lots of author can inspire their reader with their story as well as their experience. Not only the storyplot that share in the publications. But also they write about the knowledge about something that you need example of this. How to get the good score toefl, or how to teach

children, there are many kinds of book which exist now. The authors in this world always try to improve their ability in writing, they also doing some analysis before they write with their book. One of them is this Remote Sensing from Air and Space (SPIE Press Monograph Vol. PM162SC).
