Job\$ in the Drug Indu\$try: A Career Guide for Chemists Richard J. Friary

This book is intended to help newly graduated chemists, particularly organic chemists, at all levels from bachelors to post-doctorates, find careers in the North American pharmaceutical industry. It will serve as a practical, detailed guidedbook for job seekers as well a reference work for faculty advisers, research supervisors, development officers, employment agents, and personnel managers in the industry. The book gathers in a single volume the fundamentals of getting an industrial job as a medicinal or process chemist, and covers all aspects of a chemist's job--scientific, financial, and managerial--within a pharmaceutical/biotechnology company. Other scientists looking for jobs as analytical or physical chemists and even biochemists and biologists will find the book useful. The valuable appendix is a unique compendium of 365 commercial, governmental, or non-profit institutions that comprise the North American pharmaceutical industry.
