Legend has it that the islands were collectively named after the Polynesian navigator who discovered them, Hawai'iloa. The other islands were named after each of his sons, and one of them was Oahu. Roughly diamond-shaped and divided by a chain of mountains, Oahu was formed by two shield volcanoes. This means that the lava they formed is mostly fluid, allowing it to spill below and form the main valley in the middle, and the two narrower ones facing the sea on either side. Fascinating, isn't it? The same can be said about Oahu and all it has to offer. There's Waikiki, which contains some of the most expensive real estate in the world; there's Pearl Harbor, though thank goodness the Japanese are no longer belligerent; there's spectacular scenery; and of course, there's the beaches and all the bare bodies to ogle (though some would be better off covered, admittedly). Tourism is the island's main industry, so whether its nature you're after, city life with its clubs and shops, or something to do with culture, Oahu has it and more.
