Learning WCF: A Hands-on Guide Michele Leroux Bustamante

This easy-to-use introduction to Microsoft Windows Communication Foundation (WCF) is ideal for developers who want to learn to build services on a company network or as part of an enterprise system. Built into Windows Vista and Longhorn, and available for Windows XP and Windows 2003, WCF provides a platform for service-oriented architecture (SOA) that enables secure and reliable communication among systems within an organization or across the Internet. With WCF, software developers can focus on their business applications and not the plumbing required to connect them. Furthermore, with WCF developers can learn a single programming API to achieve results previously provided by ASMX, Enterprise Services and .NET Remoting. Learning WCF removes the complexity of using this platform by providing detailed answers, explanations and code samples for the most common questions asked by software developers.

Windows Communication Foundation (or WCF, formerly code name "Indigo") provides a set of programming APIs that make it easy to build and consume secure, reliable, and transacted services. This platform removes the need for developers to learn different technologies such as ASMX, Enterprise Services and .NET Remoting, to distribute system functionality on a corporate network or over the Internet. The first truly service-oriented platform, WCF provides innovations that decouple service design and development from deployment and distribution - creating a more flexible and agile environment. WCF also encapsulates all of the latest web service standards for addressing, security, reliability and more.

From reader reviews:

Shelly Rodriguez:

Book is to be different per grade. Book for children until adult are different content. To be sure that book is very important usually. The book Learning WCF: A Hands-on Guide had been making you to know about other understanding and of course you can take more information. It doesn't matter what advantages for you. The e-book Learning WCF: A Hands-on Guide is not only giving you a lot more new information but also to be your friend when you feel bored. You can spend your personal spend time to read your guide. Try to make relationship using the book Learning WCF: A Hands-on Guide. You never feel lose out for everything if you read some books.

Julio Rico:

Reading a reserve can be one of a lot of exercise that everyone in the world adores. Do you like reading book consequently. There are a lot of reasons why people fantastic. First reading a reserve will give you a lot of new data. When you read a guide you will get new information because book is one of various ways to share the information or even their idea. Second, reading through a book will make a person more imaginative. When you looking at a book especially fictional works book the author will bring one to imagine the story how the figures do it anything. Third, you may share your knowledge to others. When you read this Learning WCF: A Hands-on Guide, you are able to tells your family, friends and soon about yours book. Your knowledge can inspire average, make them reading a book.

Dolores Mann:

This Learning WCF: A Hands-on Guide is great reserve for you because the content that is full of information for you who all always deal with world and get to make decision every minute. This kind of book reveal it information accurately using great arrange word or we can state no rambling sentences included. So if you are read the item hurriedly you can have whole data in it. Doesn't mean it only will give you straight forward sentences but difficult core information with attractive delivering sentences. Having Learning WCF: A Hands-on Guide in your hand like obtaining the world in your arm, data in it is not ridiculous one. We can say that no guide that offer you world in ten or fifteen tiny right but this book already do that. So , this really is good reading book. Hey there Mr. and Mrs. busy do you still doubt that?

Anne Braden:

Beside this specific Learning WCF: A Hands-on Guide in your phone, it might give you a way to get nearer to the new knowledge or facts. The information and the knowledge you may got here is fresh in the oven so don't end up being worry if you feel like an outdated people live in narrow small town. It is good thing to have Learning WCF: A Hands-on Guide because this book offers to you readable information. Do you often have book but you don't get what it's all about. Oh come on, that will not end up to happen if you have this with your hand. The Enjoyable agreement here cannot be questionable, like treasuring beautiful island. So do you still want to miss the idea? Find this book and read it from currently!
